DETAILED ACTION

Acknowledgement is made of receipt and entry of the amendment filed on February 13, 2007.

The rejections made under 35 U.S.C. 112, second paragraph, set forth in the previous office action have been overcome by Applicant's amendment.

Examiner has acknowledged that claims 2 and 11 have been cancelled by applicant.

Examiner has also acknowledged that claims 19-23 have been withdrawn from consideration by applicant.

Claims 1, 3-10, 12-18, 24-33 will be examined on the merits.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 3-10, 12-18 and 24-33 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 6 are rendered vague and indefinite because of the phrase "wherein the extract comprises antineoplastic components." It appears to the Examiner that the only claimed extract that should comprise of antineoplastic components should be obtained within the final step of producing a final claimed extract. In the instant case, the final claimed extract would be the "polar solvent extract". Thus, the only extract that should be comprised of antineoplastic components is the "polar solvent extract".

Art Unit: 1655

However, claim 6 is contradictory to the final step of producing a final claimed extract comprised of antineoplastic components because claim 6 claims that other extracts such as the acetone extract and the nonpolar organic solvent extract also comprise of antineoplastic components. Clarification is required.

Claim 24 is rendered vague and indefinite because of the phrase "wherein the antineoplastic components comprise a compound having the following formula." It appears to the Examiner that the claimed antineoplastic components comprising of a compound having the following formula could be contained either within the acetone extract or the nonpolar organic solvent extract or the polar solvent extract. Thus, what extract are the claimed antineoplastic components comprising of a compound having the following formula contained within? Clarification is required.

All other claims depend directly or indirectly from the rejected claims are, therefore, also rejected under 35 U.S.C. 112, second paragraph for the reasons set forth above.

No claims are allowed.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1655

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
